

AXC-100

AirX C100

Smart Air Quality Monitoring System

Particulate, gas and climate monitoring for industrial sites, smart cities and buildings.

AirX C100 tracks particulates, gases and climate together, supporting pollution tracking, workplace safety and environmental compliance from a single connected unit.

PM2.5 / PM10

CO₂ / VOC

AQI

SPECIFICATIONS

Measured parameters	PM1 · PM2.5 · PM10 · CO · CO ₂ · VOC · Temperature · Humidity
Monitoring	Continuous, remote
Analytics	Connix Xview – AQI dashboards, alerts, reports
Series	AquaAir – Water & Environmental Intelligence

KEY FEATURES

- Eight air quality and climate parameters
- Live AQI with threshold alerts
- Compliance-ready historical reports
- Cloud dashboards across every site

APPLICATIONS

- Industrial facilities
- Smart cities
- Construction sites
- Mining operations
- Commercial buildings
- Educational campuses
- Hospitals
- Environmental compliance monitoring

Electrical, environmental and enclosure ratings are in the full datasheet — request it at www.connix.in/products/airx-c100/
