

FieldIQ Series

FieldIQ

Portable Smart Monitoring Node

Compact, battery-powered, field-deployable nodes for surveys, studies and temporary monitoring.

Compact. Battery powered. Field deployable. FieldIQ nodes go where fixed infrastructure doesn't — surveys, audits and research projects — and securely transfer their data to the cloud.

Battery

Wireless

Rugged

SPECIFICATIONS

Power	Battery powered, low-power design
Connectivity	Wireless
Build	Rugged, portable enclosure
Analytics	Connix Xview

KEY FEATURES

- Low-power design
- Wireless connectivity
- Portable deployment
- Rugged construction

APPLICATIONS

- Monitoring projects
- Remote infrastructure
- Water surveys
- Environmental studies
- Research projects
- Utility audits

Electrical, environmental and enclosure ratings are in the full datasheet — request it at www.connix.in/products/fieldiq/
