

WXM-100

WaterX M100

Smart Water Meter

Smart water metering over LoRaWAN or BLE for distribution networks and bulk consumers.

WaterX M100 brings consumption data from the field to the cloud over LoRaWAN or BLE, giving utilities and facilities a live view of flow across their network.

LoRaWAN

BLE

Metering

SPECIFICATIONS

Function	Smart water metering
Connectivity	LoRaWAN · BLE
Analytics	Connix Xview – consumption dashboards and reports
Series	AquaAir – Water & Environmental Intelligence

KEY FEATURES

- Low-power LoRaWAN uplink for wide-area networks
- BLE for local configuration and readout
- Consumption trends and reports in Connix Xview
- Designed for long-term field deployment

APPLICATIONS

- Municipal water distribution
- Bulk supply metering
- Industrial water consumption
- Campus and facility water audits

Electrical, environmental and enclosure ratings are in the full datasheet — request it at www.connix.in/products/waterx-m100/
